Jennifer Frick, PT, DPT is a Neuro-IFRAH Instructor located in Lake Charles, Louisiana. Jennifer received her Bachelor of Science degree at the University of Notre Dame in 2008 and her Doctorate of Physical Therapy from Texas Woman’s University at Dallas in 2012. Jennifer started her career as a physical therapist at TIRR Memorial Hermann in Houston, TX before moving to Lake Charles. Jennifer worked in the inpatient and outpatient setting primarily treating adults with hemiplegia from a stroke or brain injury before transitioning to private practice. Jennifer completed her Neuro-IFRAH certification course in 2013 and went on to complete the Neuro-IFRAH Instructor training program in August 2016 with Mr. Waleed Al-Oboudi, the creator of the approach. Jennifer has also taken Advanced Gait, Advanced Problem Solving and Handling, Advanced Upper Extremity, and Advanced Hand Function/Fine Motor Control courses from Mr. Al-Oboudi. Jennifer is now teaching Neuro-IFRAH introductory courses in Southwest Louisiana and surrounding areas.

**NEURO-IFRAH® Assessment and Management of Functional Gait: Walking for Life**

October 27-28, 2018  
Baton Rouge Rehab Hospital  
8595 United Plaza Blvd  
Baton Rouge, LA 70809

Presented by: Jennie Frick, PT, DPT, Neuro-IFRAH Instructor®
COURSE DESCRIPTION

This two day introductory level course is specifically designed for physical and occupational therapists and certified assistants who work with adults who have suffered a stroke or brain injury. This course will provide participants with a comprehensive whole body and whole person approach to assessment, management planning, and management of walking. This course will utilize movement analysis and an effective, outcome oriented and inclusive management approach based on concepts of normal movement, movement sciences, the Neuro-Integrative Functional Rehabilitation and Habilitation approach (NEURO-IFRAH®) by Waleed Al-Oboudi. Creative progressions in resolving impairments and developing control and carry over for patients with various levels of function will be demonstrated and discussed. Therapists and assistants working in acute rehab, outpatient and home health will benefit from this workshop. The course format will include lecture, problem solving, and demonstration of practical application of concepts by the instructors, practice labs and possibly videos demonstrating the application on patients. This course will be followed by intermediate level, advanced and ultra-advanced courses on function in upright postures. Information will be shared by lecture, lab and possibly using video or other visual aids.

*Completion of the Neuro-IFRAH course Assessment and Management of Functional Gait is a requirement prior to taking the intermediate course Function in Upright Postures.

COURSE APPROVAL

Course has been submitted to PT and OT Louisiana Board for 14.0 CEUs.

GENERAL COURSE INFORMATION

Date: October 27-28, 2018
Time: 8:30 am- 5:00 pm
Cost: $500.00

COURSE OBJECTIVES

Upon completion of the course participants will be able to:
1. Identify the importance of walking as a critical step in rehab process and its effect on role assumption and resumption.
2. Identify factors influencing walking (whole body and other systems).
3. Identify normal components of movement in gait.
4. Identify abnormal components of movement interfering with gait in various conditions of observation.
5. Apply handling techniques to facilitate control in standing and pre-gait.
6. Apply handling techniques to facilitate one step at a time, walking forward and backward and turning, for patients with various levels of function.
7. Identify strategies to facilitate increased walking speed to normal on an individual basis.
8. Identify strategies to use tools to facilitate more normal components of movement and responses at various stages of recovery.
9. Identify steps in developing a protocol for team management and carry over for walking.

Upon successful completion of the course, participants will be Neuro-IFRAH Trained®.

COURSE SCHEDULE

Day 1:
8:30-10:00 Introduction/Lecture
10:00-10:15 Break
10:15-12:00 Lecture
12:00-1:00 Lunch
1:00-3:00 Lecture/Lab
3:00-3:15 Break
3:15-5:00 Lab

Day 2:
8:30-10:00 Lab
10:00-10:15 Break
10:15-12:00 Lab
12:00-1:00 Lunch
1:00-3:00 Lab
3:00-3:15 Break
3:15-5:00 Lab/Wrap up

QUESTIONS
